### Installation

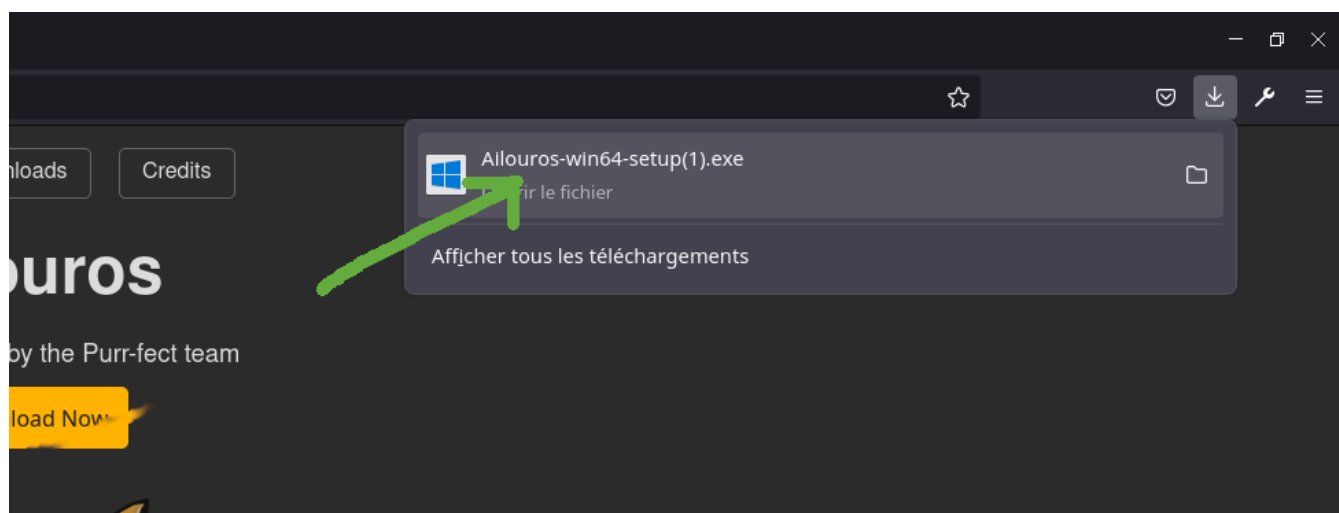

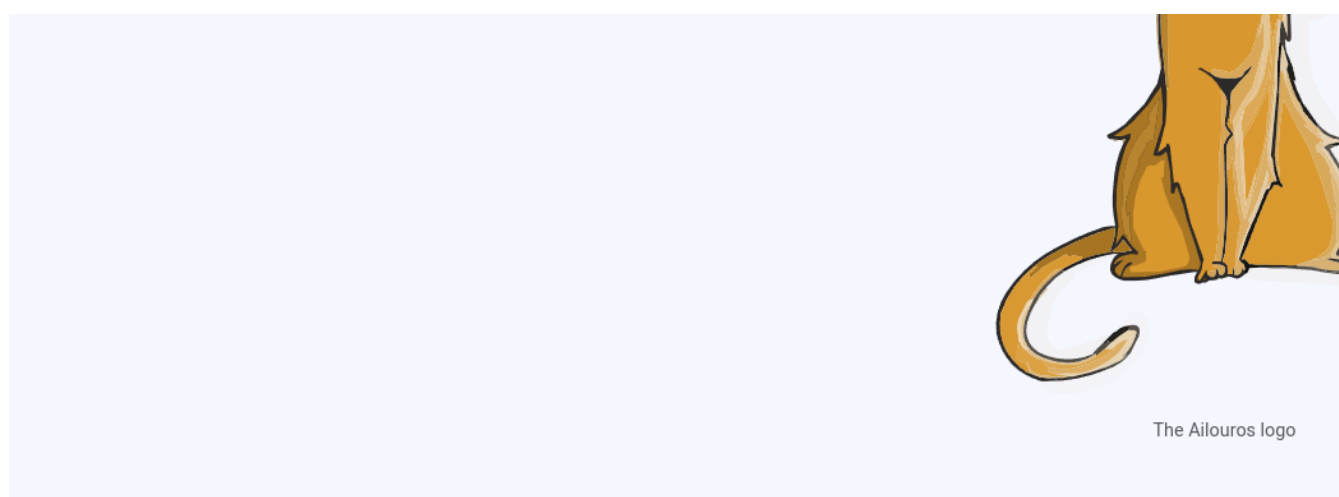

#### Download the installer

First, you have to download the installer. Go on our website (<https://purr-fect.github.io/>) and click the big “Download Now” button.

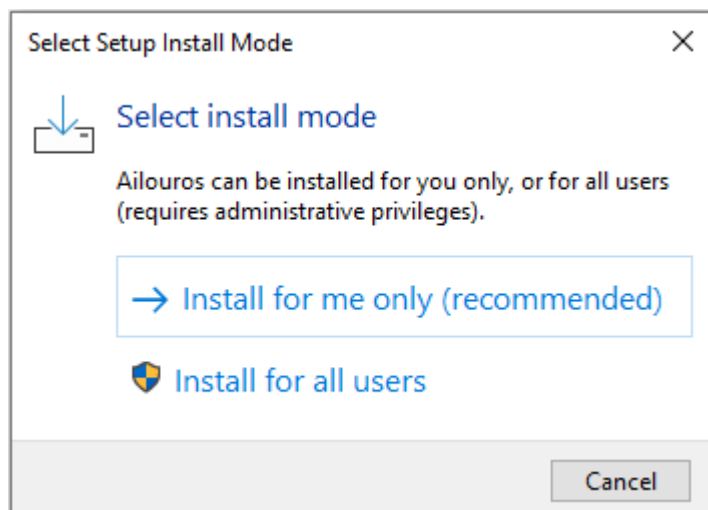

## Run the installer

Double-click on the file you just downloaded.

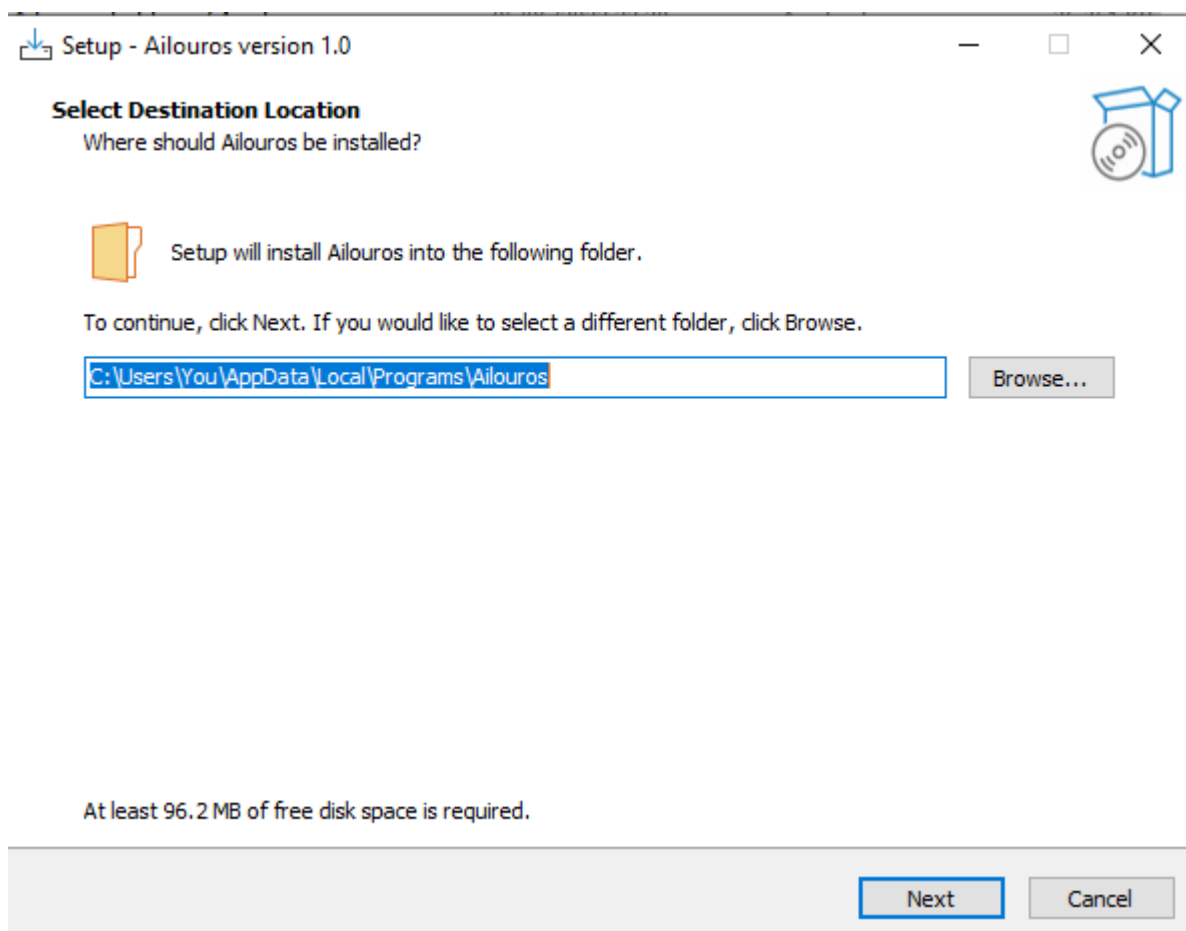

## Choose the install mode

You now have to choose how to install the game. It is recommended to install the game only for you, as it is simpler.

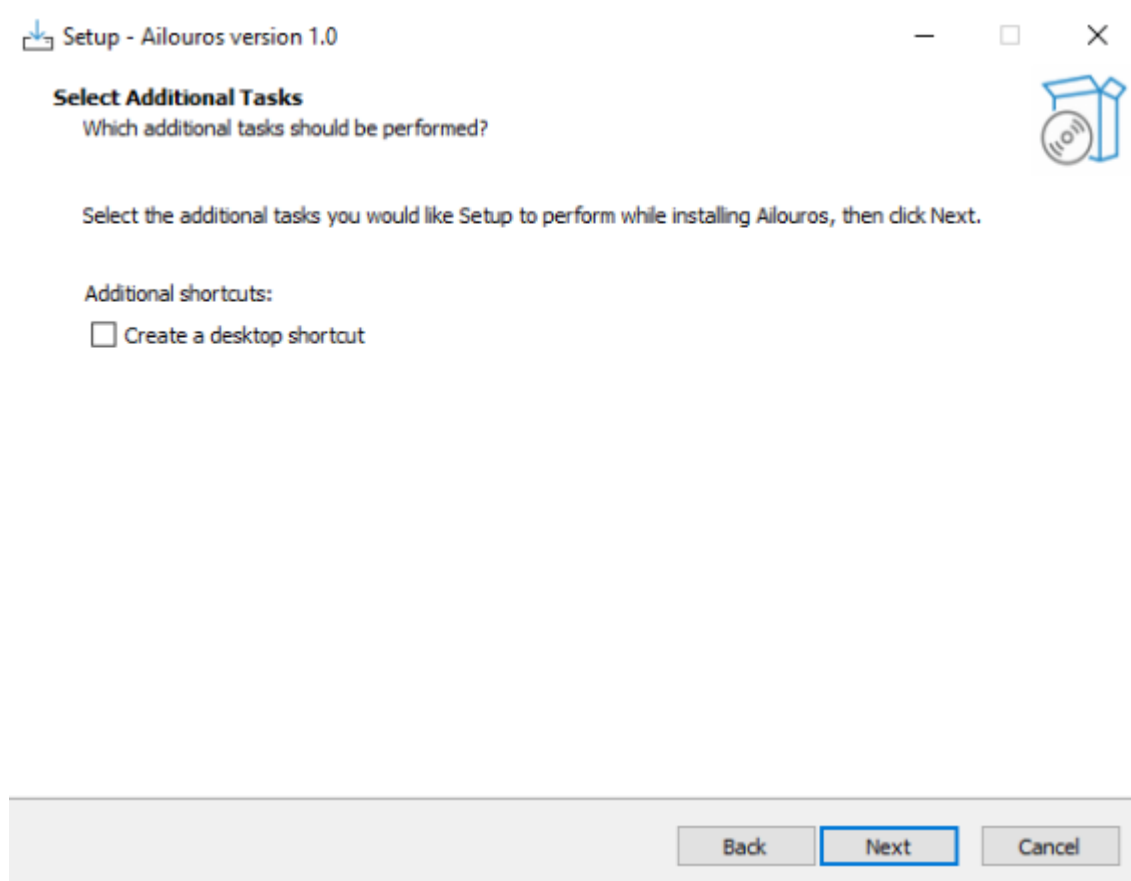

## Choose the game location

The default location should be good for most people.

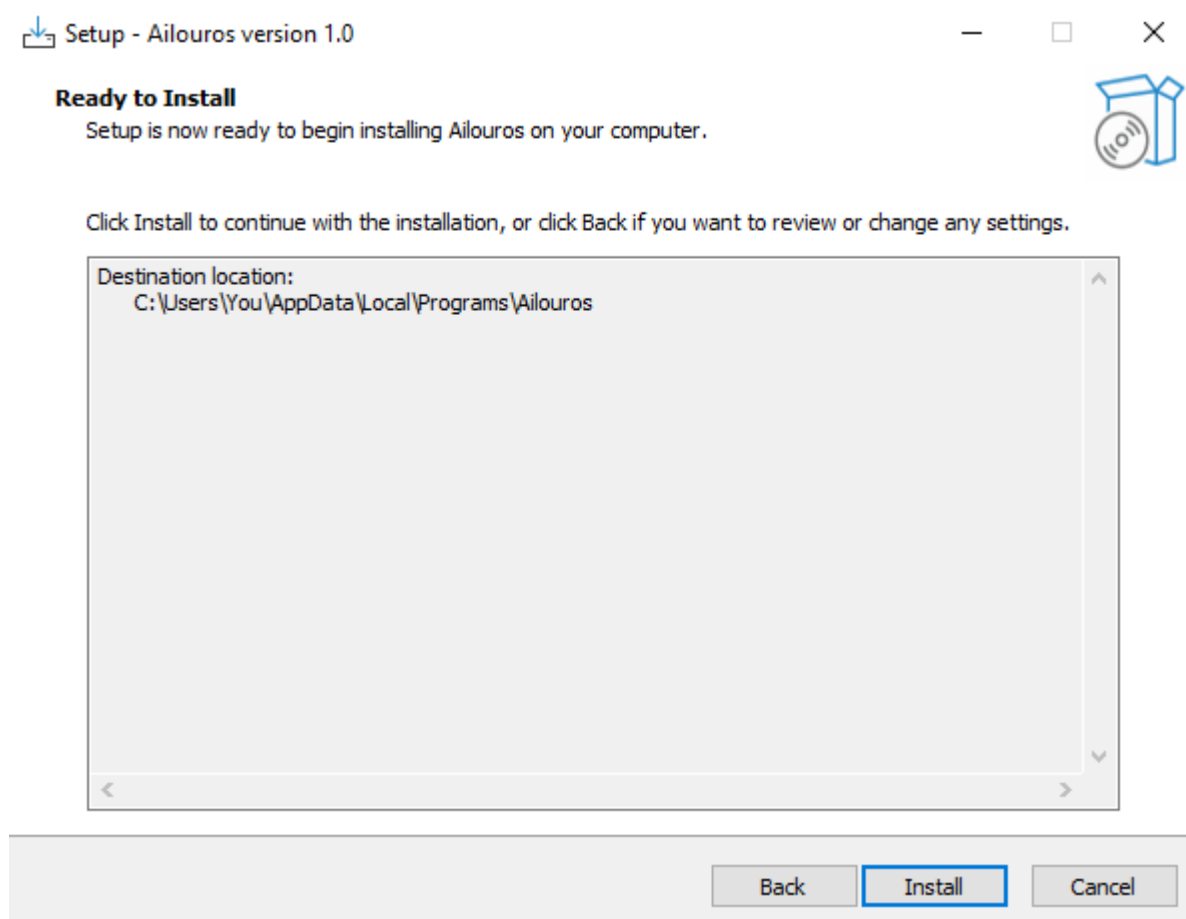

## Create a desktop shortcut

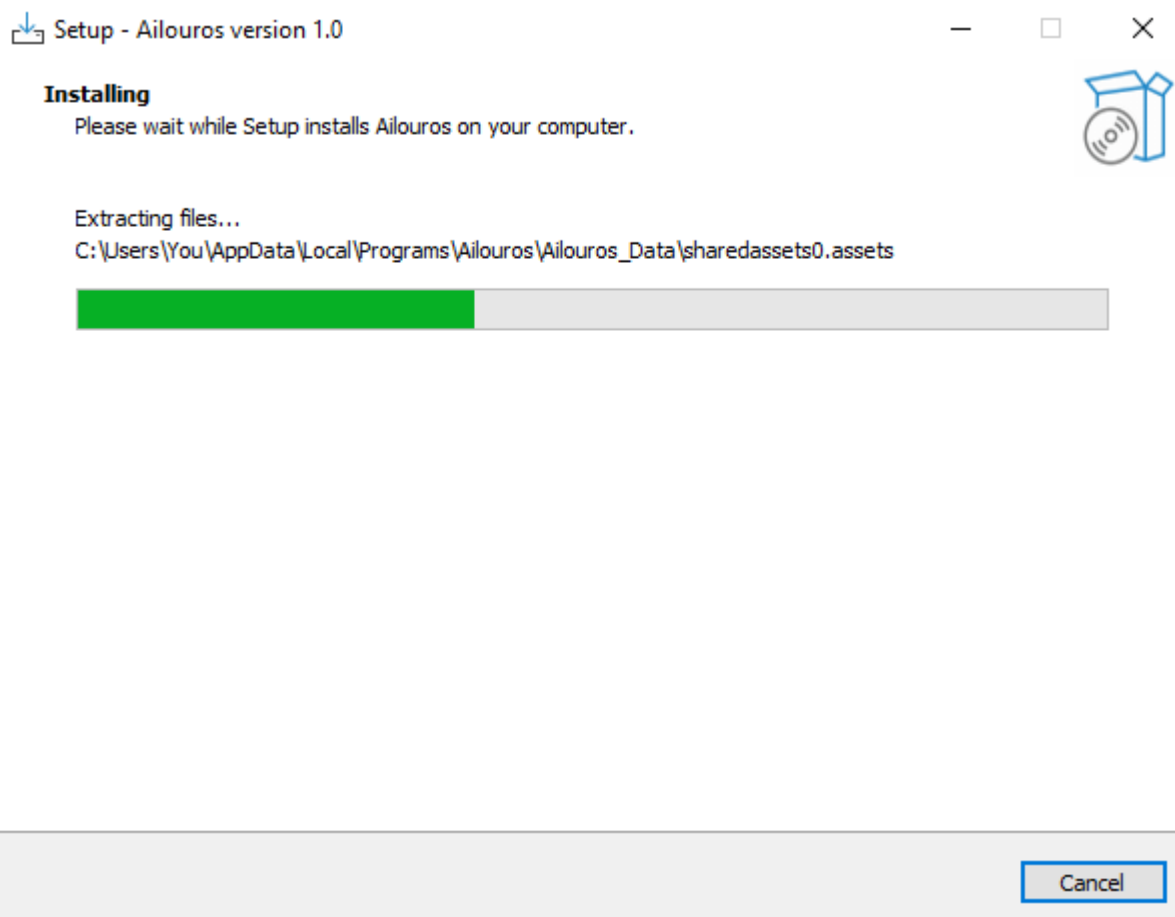

You can choose whether the installer should create a desktop shortcut to the game.

## Final step

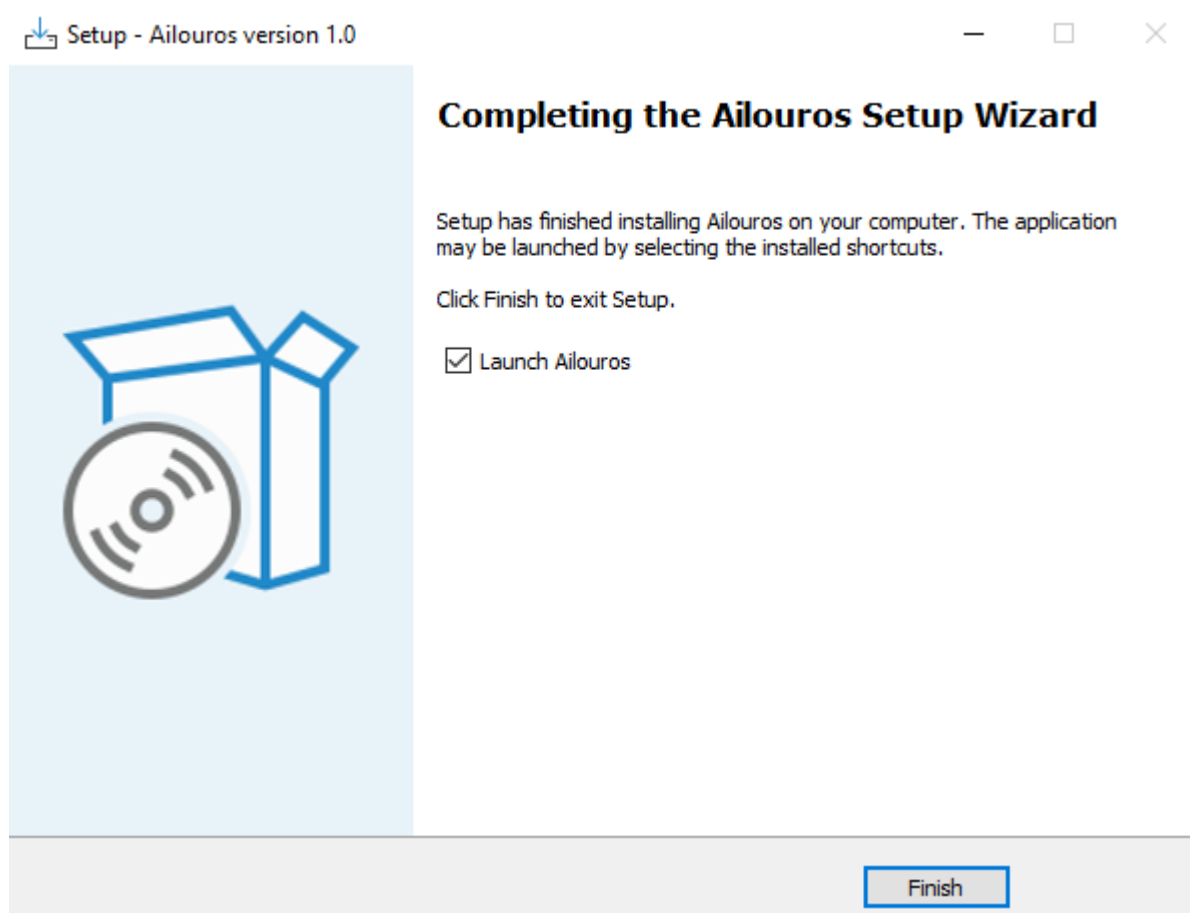

Finally, you can proceed and install the game by clicking on "Install".

## Closing the installer

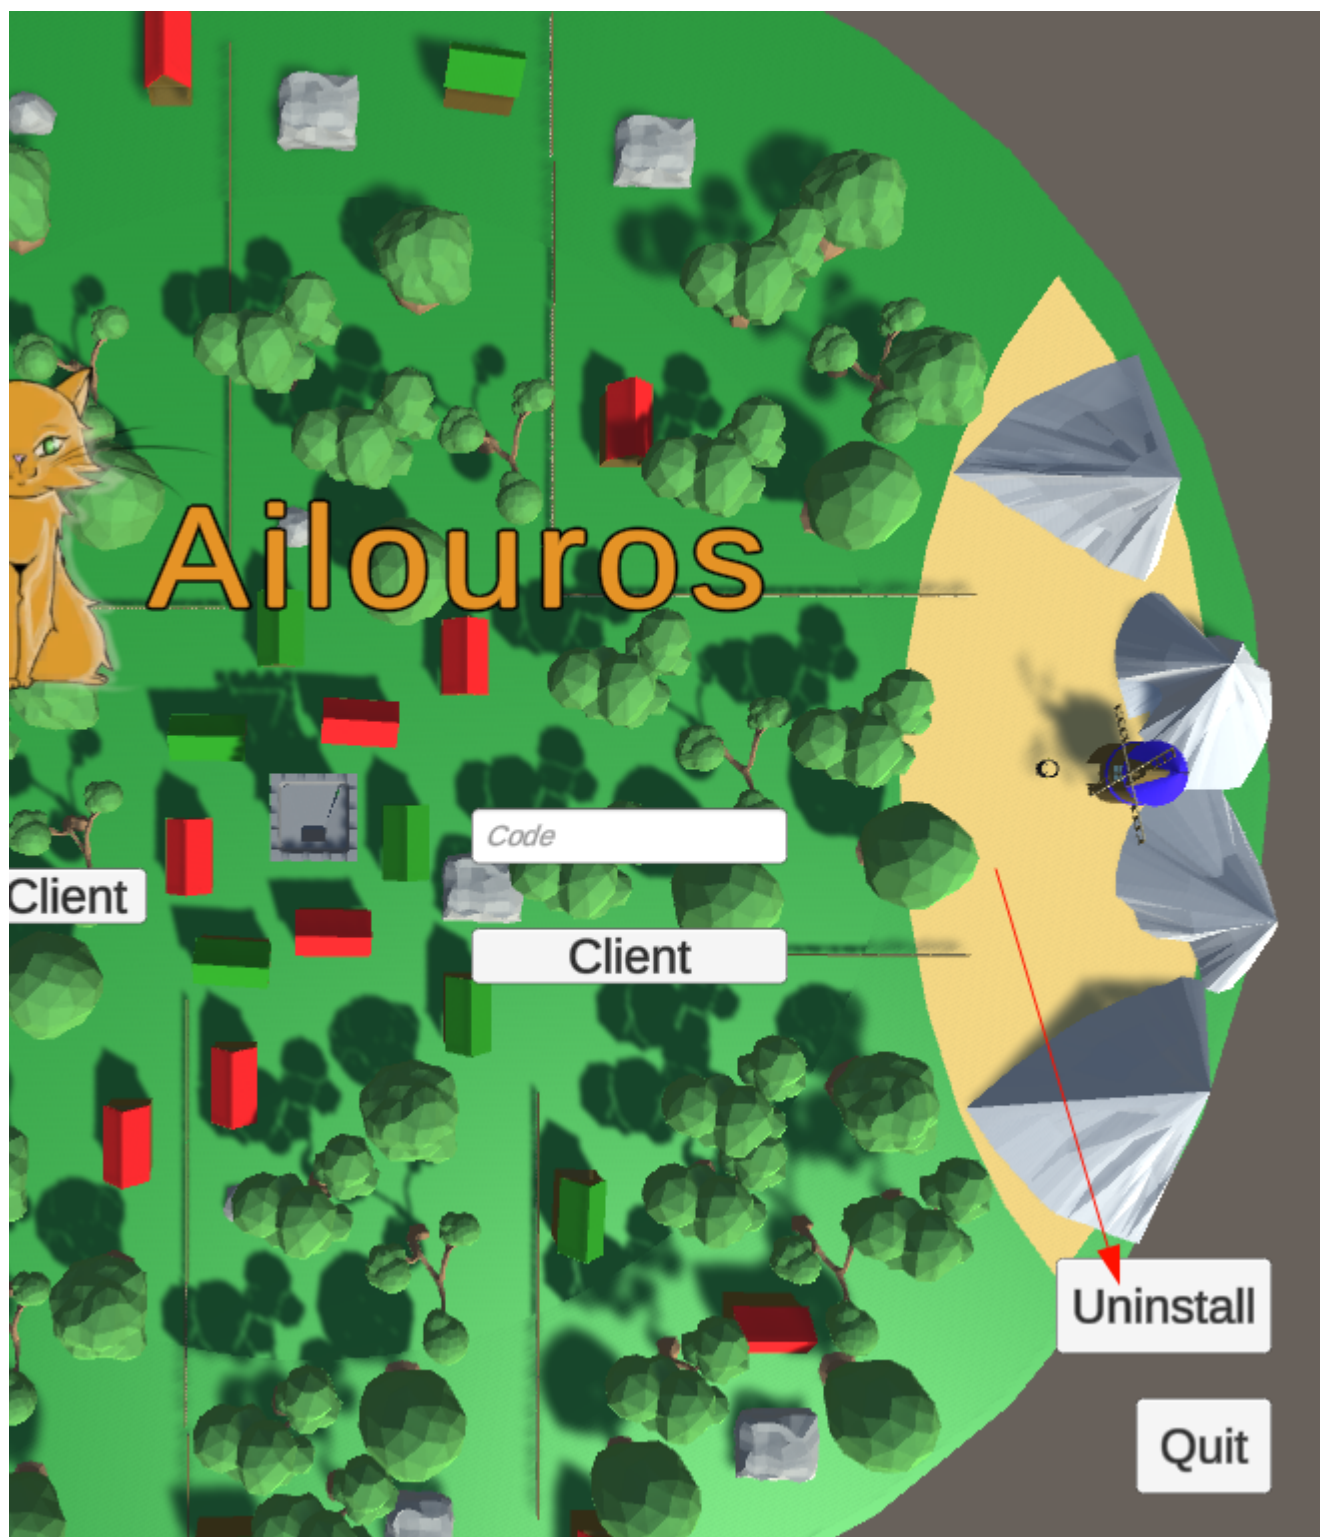

You can now close the installer by clicking on "Finish". You can also choose whether the game should start immediately after closing the installer, by ticking "Launch Ailouros".

## Uninstallation

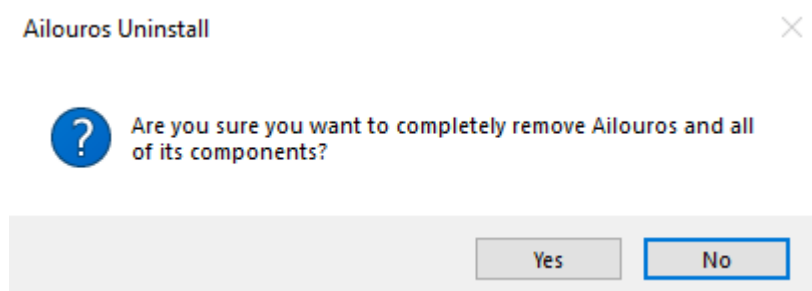

### Start the uninstaller

The simplest and recommended way to uninstall the game is to launch it, and click on the big "Uninstall" button on the bottom right.

### Confirm the uninstallation

The uninstaller first asks whether you really want to uninstall Ailouros. Click on "Yes".

## Close the uninstaller

The game quickly uninstalls. Press “Ok” to close the uninstaller.
